Customer Reviews

I have been waiting for this book for months and it didn't disappoint. I have stayed up most of the night and it was worth it. If you are looking for an amazing series this is a must read. Elle is so passionate about her beliefs and she has a compassionate nature. Sebastian is so protective of Elle and would do anything for her. All this and more makes it so easy to get involved into the story and to feel like you are there. I don't want to give spoilers but this book is well worth the price. Buy it!!!!

This was an excellent series filled with much suspense mystery and intrigue. The characters were

very well-developed; the storyline was invigorating. In a world of dystopia Supernatural Powers what more could one expect. This was one roller coaster of a ride.

Great and creative story line that kept me captivated! Refreshingly clean, fun, suspenseful and full of and adventure. Lots of twists and turns.

Held in suspense until the end. Unique heroine who considered herself to be a simple common ordinary person. Great fantasy story.

Great ending to the series! It kept me guessing the whole way through and there were a couple of twists I was not expecting.

This final book in the ARC series wraps up the loose ends and gives closure to the various story lines in the series.

4**** = Good read. Plot and writing well put together.

I've been waiting for *Destined* for a while, and I'm pleased to say that it provides a very satisfying conclusion to the ARC series. I liked seeing Elle develop her powers, and how she adapted to the different challenges she was faced with. She is my favorite kind of strong female character -- she's kind and loving, but she's also no damsel in distress. If anything, she's the knight in shining armor, riding to save her loved ones even when victory seems impossible. I also liked Hunter's character development. And RYAN. Oh my goodness, I did not see that coming. I did feel like there were a few flaws in the solution, but still, props to the author for a brilliant reveal. And the ending, the most crucial part of any series? In my opinion, absolutely stellar. I kid you not, I genuinely thought for a second that they weren't going to make it. There was just the right amount of threat (lots), death (not saying whose, though!), and ultimately, happiness. Perhaps it was a bit frolicking-off-into-the-sunset right at the very end, but whatever, I'm a sucker for happy(ish) endings. One final note before I finish. The grammar in this book isn't the best. There are a few run-on sentences, lots of adverbs, and passive voice. Also, if I had a nickel for the number of times when Elle's heart was "beating in her chest" ... well, actually, I'd have 90 cents. I just searched on my Kindle and it happened 18 times in the entire book, which I guess isn't bad for a 400-page novel (seriously, though, where else is your heart going to be beating? Your big toe?). My overall verdict is four stars. As a series ender,

Destined works perfectly. Now that it's all wrapped up, I can safely say that the ARC series is perfect for anyone who loves YA dystopia, superheroes, or just a cracking good story.
