Customer Reviews

It's fine, but really more of an instruction manual rather than a book. I can see a 6-7 year old reading all about how to pick a sleeping bag, put up a tent & cook. However my 2 year old doesn't care what the book says. There is no story, but lots of pictures on every page and she likes those. Definitely a book she will grow into.

Love this book. It is so detailed, yet understandable even for my 2 and 4 year old. Great cartoon-like, but still real looking colored pictures too.

I bought this book under the the description of "new" but when I received it there where pages with creased corners... the product book itself is great for children that want to learn about camping!
