"For anyone with a child in their lives, this is a cute and easy way to give them a piece of their history they can treasure forever." --New York Family Magazine

Some people want to know what the 12 letter prompts are before buying, so here they are: My wishes for you are...What I want you to know about me...The world I want to give you is...One really special thing about you is...On the day you were born...Your first home was like this...This is your idea of a good time...I laugh when you...My first impressions of you were...All the things I hope you'll try someday...[Blank - write your own][Blank - write your own]

My husband and I are filling these out for my daughter who is currently 6 months old. I love doing things like this so she can look back on words from Mom and Dad when she gets older. It's a very cute book and fun to complete! Since my husband and I both are writing letters, one of us will

complete the provided page, and one of us will use loose paper and just put it in the envelope. Doing this makes the book kind of fat since we're adding paper, but it hasn't been an issue yet.

I look forward to writing to my baby! The pages fold down to form the letter then fold back up to look like the envelope. Most of the have a guided topic with two without topics (my hopes for you...). For me I only wish there was more without topics. That is just me. I know many will enjoy having the guides and they are good.

I gave this as a baby shower gift for my daughter in law. I thought it was a nice change from diapers and too many newborn size clothes. Many of the guests remarked on what a good idea it was. I liked how the letters are easy to access and still leave the book intact. I would have loved something like this when my boys were small.

Love this concept, so cute! The paper is a little bit thin, so writing showed through on other side (I used a fine tip sharpie). Also, with the set up, it's a little awkward to write in unless you remove each envelope, which I think is the idea. I want to keep them all in the book, so by not tearing out the pages it's a little funny. But, really great item!

I bought this to write in for my first child. I enjoy the questions within this book and the amount of space provided to respond to each question. The only thing I would like to improve about this is that it is hard to write a response when you can't remove the page from the book in order to write on it. It would be nice if they had created actual envelopes and provided removable paper on which to respond.

So cute! I write these letters when I feel compelled, and I hope my baby will appreciate them when she's older. The stationary is cute and the stickers are adorable. I highly recommend!

This is such a great way to save letters for your little one. I bought one for myself and one for my sister in law. This is going to be my staple gift for baby showers. It seems like everyone is having a baby around me and it's such a thoughtful gift. It would have been wonderful for a mother's day gift, but I discovered it after mother's day passed. I loved the idea of keeping a diary, but this seems so much more special because it's all for your baby.

I have two daughter-in-laws expecting and each month I am trying to get them something special to have that is a keepsake. This was a hit! Love!
