I had it before and got it for a friend. She thought it was as good as I did!

Years ago I had the Color Me Beautiful book, but at some point gave it away, or sold it on . Years later, I wanted to find my colors again, so I got the makeup book. After reviewing the book, I remembered how I could never decide what I was, summer or winter. I have decided that the cool colors are best, so I made some progress, and am probably most safe with summer colors. There are tests to determine which season is best, if you cannot decide between two. (There are 4 seasons) For me I found it was best to decide by process of elimination. The rest of the book seemed to be alot of non-color-essential filler, like how to apply makeup, and hair and clothes styles. So for the low price of a used book, I got more information than I needed.

I am a firm believer in Carole Jackson's original 4 seasons approach to personal color analysis! Truth never goes out of style. Anyone who wants to look and feel their best, should should adhere to these principles!

Informative

I love it! I wrote it.

however, it served my purpose. Would I buy another, for a friend or family member... probably not. There are other books out there that are much more helpful. That being said, it's great for someone just starting to use a little makeup, etc.

A little dated but still excellent excellent info.

Love this book. Very helpful in selecting colors of makeup.
