Milady's Standard Textbook Of Professional Barber-Styling

Synopsis

This revised edition is completely updated in both theory and the practice of barber-styling and brings you the latest in men's haircutting and styling, along with the most current information on barbering tools and implements. Revised using input from our current textbook users and the expertise of the National Association of Barber Boards, the textbook and corresponding supplements, also revised, are designed to better prepare your students for state licensing exams and successful careers in the professional market. A greater variety of multicultural cuts and styles are used throughout to reflect the range of clientele students may services during their professional career.

I bought this book because I would like to learn to cut basic haircut at home without going to beauty school. I figured maybe this book has a step by step techniques from comb and scissor to clippers...

Not really. It's actually a textbook that explained general terminology of hair cutting process..not what I was looking for..I was looking for book that would show me what type of haircuts and it's step by step process and techniques to accomplish such haircut. But other than that this book is okay for general lesson of barbering.

So happy to have found a copy of this barbering book. It's in great shape and will help when studying for the state exams.

This item was a gift for a friend starting barber school. I found a better price here than around where I live.

good for cosmetology student or just home cutting use.

I like it! It helped understand a lot What i need to know.

Very helpful

good
