Frank Lloyd Wright Art Glass Coloring Book

Synopsis

Pomegranate's Art Glass coloring book features 14 drawings based on original glass designs by Frank Lloyd Wright. Coloring pages are translucent and blank on the back so they can be cut out and displayed on a window (each 8 1/2 x 11 inches). Each illustration is reproduced in a small, color version of the original artwork and as a full-page black line drawing. The architect and designer Frank Lloyd Wright (American, 1867-1959) single-handedly changed how Americans thought about houses, insisting on more light, less clutter, freer movement from room to room, and the honesty of good materials displaying their natural color and texture. Driven by the belief that the places people live and the things they use every day should reflect the surrounding landscape--he called this an 'organic' way of creating new objects--Wright designed many of the furnishings for his famous houses, churches, and commercial buildings. He gave special attention to windows and loved to decorate them with art glass designs. You'll find fourteen translucent images in this coloring book, adapted from Wright's windows and lights. The designs, as adapted, are shown as small pictures inside the front and back covers. You'll notice the many straight lines used to make patterns, which sometimes look like familiar things such as plants and flowers. When you color in a picture, you might want to make something close to the original, or you might decide to use colors that are quite different.

Wonderful adult coloring book!

I have four large windows in my new house in Mexico and want to do architectural glass designs to let light in but maintain privacy from the house next door. I love Frank Lloyd Wright's designs and plan to use them to come up with what I really want.

Yes just what I wanted to design my own colors for a quilt.

I bought this to inspire me to make a stained glass quilt for my son, an architect, who admires FLWright.

Perfect for any Frank Lloyd Wright fan. Young or old!
