Touch (Five Senses Series)

Synopsis

Do you remember your first realization of any of your five senses? Prolific children's author J. M. Parramâ n successfully tackles these tough concepts in words that 3-5 year olds can comprehend. These five colorful books awaken young minds to the wonders of the senses: the taste of oranges, the aroma of fresh-baked bread, and other sensations that give us delight in being alive. Educational, yet fun to read, this clever series is clearly written and cheerfully illustrated in flowing colors throughout. Each book includes a special "scientific" section to help parents answer their children's questions about the senses.

Text: English, Spanish (translation)

I used this series of books with a daycare class. The kids loved them. The pictures are engaging, and the text is a fun way to introduce children to the senses. Each book contains further pictures and explanations about the mechanics of the body, i.e. the nose, ears, tongue, which are great for children who are still curious when the book is done.

I ordered this book and two others at the same time. They all arrived together and were packaged well. The book was great for my four year old preschoolers. The books explains different textures with examples that young children can relate to. Books were in great shape and I will keep them for my collection!

It was a little hard for my pre k class to understand but all in all its a great book to have

Like in the other volumes of this set on the senses, this book awakens children's awareness to the marvelous gift of touch.

Used this book for my unit on senses.... Very good book, I then also purchased the hearing book by the same author.

I love this book! Great serieese for teaching the 5 senses to preschool age children. Story gives good understandable examples for children.

arrived just as stated!
