Oil Painting: Develop Your Natural Ability

Synopsis

From an buyer review: "I have purchased many oil painting books which unfortunately are long on theory but short on sound practical advice. Charles Sovek's book guides the beginner through many structured projects in which the essential building blocks of good painting technique are mastered. No book I have come across offers this instruction in such a clear concise manner. Living in a country which offers few oil painting courses, this book more than makes up for the lack of live classes. I highly recommend this book to budding oil painters."

Book Information

Hardcover: 160 pages

Publisher: North Light Books; 1st edition (March 1991)

Language: English

ISBN-10: 0891343601

ISBN-13: 978-0891343608

Fast. Item as expected. Good bargain

a good reference book

Excellent book well worth the money. A great book for beginners

Old book but great!

so helpful

great stuff.

Charles is a wonderful teacher. If you want to learn basics of painting and get a great start into being an artist, this book is a must. A great thing about this book is that you'll learn how to express yourself. Sometimes beginners copy their teacher's style, but not with Mr. Sovek. His encouraging manner will help you to develop your style. He also gives great advice how to overcome fears and frustration that we often get. It is one of my favorite art instruction books I've ever bought.

I found this book extremely helpful. The lessons are organized in a way that build over time. I prefer a more organized course of study that covers the major principles of painting, and that's exactly what this book/course provides. Well worth it. It's probably best for beginner and intermediate painters. Although even seasoned pros can likely pick up a tip or two.
