More German-American style than German. Geared towards common US ingredients and tastes. Not what I was looking for, which was traditional German recipes. It is ok for a small cookbook and reminds me more of Pennsylvania Dutch cooking than German cooking. No photos and how many recipes for potato salad do you really need (there are 8 similar recipes in this slim volume).

This book had many recipes my great grandmother used to cook for us! THANK YOU! Brought tears to our eyes!

The rest of the recipes look very interesting and I look forward to trying them. Probably the first recipe I will try is Beef Pot Roast with beer marinade.

Was disappointed with the size and no photos included with recipes. Should have looked into the detail information about book before purchasing.

Great cookbook for the price. Lots of recipes, although not very detailed. Great to flip through to get ideas for variations on traditional recipes. I like that it has several versions of different dishes, like

spaetzle or dumplings.

It has great recipes but I gave it as a gift and was disappointed to see it was very small...it fits in your hand it's so tiny. Good content just wasn't what I expected.

Love this cookbook! Being raised with German food this book has so many yummy recipes that are so easy to make! Also bought a Spaetzel maker at the same time!
