Deadliest Animals On The Planet: Deadly Wildlife Animals

Synopsis

As adults, it is our responsibility to ensure that our children are provided with the proper platforms for learning about our Earth and everything within it. As our children's brains are able to soak up information at tremendous rates, we should do everything we can to get them started on their education as soon as possible. At the same time, we should be sure to ensure that they are able to enjoy their childhood with fun at the same time. A Deadliest Animals on the Planet Picture Book will give them a better understanding of why they should not stick their hands through the zoo's gates when visiting.

Customer Reviews

I really like to read books on animals even though I am an adult. I saw this free for my Kindle so I thought I would read it. I also generally like the books Speedy Publishing puts out. This book has various pictures of various deadly animals with fun facts about them. The pictures in this book were fantastic and very colorful. The deadly animals featured are scorpions, rhinos, sharks, snakes, cape buffalo, frogs, jellyfish, lion, komodo dragon, fish, crocodiles, flies, leopard, spiders, tigers,

elephants, polar bears, hippos, mosquitoes. This book would probably be for children ages 3 to 8 depending on their attention span. This was a short book and a fairly easy read. The pictures alone are worth the read. I would recommend this to anyone young or old. I received this product at discount for my honest testing and review. I am under no obligation to provide a positive review and receive no incentives or rewards for doing so. My aim is to highlight features and drawbacks that I would want to know about as a buyer, not hype the product for the manufacturer. My remarks are sincere and my own. While it is true that many items are received at discounted rates or complimentary, my reviews are completely honest and are my personal experiences with the product. Again, it is just my opinion, your own opinion might vary. I received no monetary compensation and I am not required to give a good review.

As our children's brains are able to soak up information at tremendous rates, we should do everything we can to get them started on their education as soon as possible. As parent we should be sure to ensure that they are able to enjoy their childhood with fun at the same time. This book about Deadliest Animals on the planet with pictures will give them a better understanding of why they should not stick their hands through the zoo's gates when visiting or tease any animals. I would like to state I am faithful and frequently shopper on . I, like you, rely on consumers honest opinion of a product/products that I may have intentions of purchasing at that moment or in the future. I was given the opportunity to receive this item for free or at a discounted price in exchange for my use, examination, and over all thoughts and recommendations. I haven't, nor will I ever leave a false opinion of a product out of obligation. Nor have I or would I ever except any form of monies in exchange for my assessment of an item, and or give a dishonest and false evaluation. No one in any way has or will coach me on what to or not to say about an item. I am not obligated to give a positive review. In fact I have been asked to be completely honest to help the company/companies provide the best products possible for their customers.

animalAs adults, it is our responsibility to ensure that our children are provided with the proper platforms for learning about our Earth and everything within it. As our children's brains are able to soak up information at tremendous rates, we should do everything we can to get them started on their education as soon as possible. At the same time, we should be sure to ensure that they are able to enjoy their childhood with fun at the same time. A Deadliest Animals on the Planet Picture Book will give them a better understanding of why they should not stick their hands through the zoo's gates when visiting. Notice: I received this product at a discount in exchange for my honest

review and unbiased opinion. I strongly rely on the reviews of others to purchase items on , and I do not take the review process lightly. I hope that my findings are helpful in your decision to purchase or not purchase. I do not review items that are not of use to me, nor do I purchase items that I do not need or want. I am not paid by the company for my review, and my review is the same as it would be had I paid full price. I am not obligated to give a positive review and am asked to be completely honest to help the company provide the best products possible for their customers. If my review is helpful, please click yes below! Thanks!

Deadliest Animals On The Planet: Deadly Wildlife Animals Kindle Edition by Speedy Publishing
Maybe I expect too much, or maybe the world of quickly printed E-books is an unedited racket. I work in Quality Assurance, so when things aren't perfect, I notice. My only complaint about this book is some of the titles on the pictures are the same color as the animal it is listing, therefore you cannot see the print. Other than that, I think the Deadliest Animals On The Planet: Deadly Wildlife Animals a great little book. I thought I would get it to put in my kid repository, but I'm thinking it's not appropriate yet for the kids I'm around (ages 5-8). Maybe the 8 year old, but me thinks not. Deadliest Animals On The Planet: Deadly Wildlife Animals has some great pictures and factoids. I actually learned a thing or two on some of these deadly animals. Like the African Cape Buffalo kills upwards of 200 people every year! You'd think since it is called "The Black Death" & "Widowmaker" by locals, they would stay away! Deadliest Animals On The Planet: Deadly Wildlife Animals is not a bad buy if you can get this book for free to have in your kid arsenal, and even under a buck, go ahead and buy it.
