Customer Reviews

So this is a real brain buster. I started one of the puzzles and still haven't finished it. It is a good challenge, though I'm not thrilled about the math ones. I regularly do difficult sudoku, so thought I could handle these, but wow some are tricky! I imagine a normal person would find which sections they enjoyed and skip the rest.

I bought this as a gift for my aunt, who loves these things. She was impressed by all the different types of puzzles, some of which she had never seen. Nevertheless, she has worked almost all of them and has enjoyed the different types. Every time I talk to her, she has a favorable comment about the book. I may get her another one for this birthday since the other is almost used up!

I like the variety of puzzles provided. Difficulty is varied and they are not rated for difficulty.

Engaging puzzles on good sturdy paper.

Terrific--exactly what I hoped it would be. Excellent puzzles and quality paper--cuz, yes, I need erasure get flexibility!

Some of the variations are really interesting and fun, but there should be more instructions

These are hard puzzles whose concepts are easy to understand and mind-boggling to accomplish. I bought two, one for me and one for my Dad who lives across country. We are going to take turns timing ourselves and trading scores. Good buy.

Very enjoyable. The puzzles are difficult, but not so diabolical as to be frustrating. My favorites are the combination puzzles (e.g., overlapping 9x9 puzzles with diagonals and odds/evens) as well the those that include three overlapping 9x9 puzzles. My only complaint is that I want MORE of those!
