Soul Numbers: Decipher The Messages From Your Inner Self To Successfully Navigate Life

Synopsis

Is it just a coincidence that a record number of people are seeing in numbers, or could it be the fabric of the universe revealing itself to us? According to the religion of Kabbalah and even the ancient Greek philosopher and mathematician Pythagoras, the truths of the universe are contained within numbers. The phenomena of numbers-seeing repeating numbers and number sequences-are sweeping the globe. People from the average Joe to celebrities are seeing repeating numbers on clocks, in addresses, in phone numbers, in account numbers, and on license plates, just to name a few. Repeating numbers and number sequences are showing up in both the quirky and the commonplace on a daily basis. Skeptics argue that seeing repeating numbers is simply a matter of pattern recognition and it's all in our head. There have been scientific theories throughout history that attempt to explain the basis of the universal structure-from String Theory to the Holographic universe. All things in existence can be counted, sorted, or measured using numbers and, intriguingly, a common thread in many theories is mathematics. More people are reporting the same phenomena in all cultures, races, and religions, turning skeptics into believers. Soul Numbers has the potential to create a tidal wave amid this numbers phenomenon, making it the new, most complete numbers-meaning bible. Numerology books offer some insight into the base number meanings of 0 to 9 but fail to go further to precisely pinpoint and explain why someone is seeing 1:47 on a clock daily and what it means to them. Covering the number meanings from 0 to 999, Soul Numbers helps readers decipher any number sequence. Whether they're seeing single 2s everywhere or exactly four-2222-it will allow them to break the numbers down like an ancient code. Unlike other titles with mainly angelic-focused number meanings, this book holds a broad spectrum view of number patterns, weaving science

Michelle Arbeau is an internationally known celebrity numerologist, inspirational speaker, and radio and TV host. She has a clientele base that stretches around the globe, with clients ranging from those seeking purpose and direction to successful professionals and celebrities wanting to fine-tune their careers and personal lives. Some of her celebrity clientele include Twilight vampires Judi Shekoni and Amadou Ly, Big Bang Theory actress Alice Amter, NBC director Ricky Powell, Pirates of the Caribbean actor Treva Etienne, A League of their Own actress Lori Petty, and celebrity stylist Carrie White. A media favorite who is considered an expert in her field, she is frequently a guest on national media outlets such as CBC Radio, CTV Morning Live, and Breakfast Television. She has spoken on a wide range of topics from Friday the 13th to predicting Obama's re-election. Arbeau's love of numbers and numerology happened in a very synchronistic way. After a near-death experience at the age of four, she began to experience psychic phenomena that continued throughout her early life. Lacking guidance and support, she pushed her premonitions and intuitive information aside until her early twenties, when she suddenly began dreaming in numbers every single night. Knowing these were messages from the spiritual realm, she sought out their meaning on the Internet. Stumbling upon numerology, she discovered that the messages were direct answers to her life issues. Amazed by the accuracy of the numerical messages, Arbeau began a love affair with the world of numbers. She now teaches Power of Numbers workshops in venues throughout North America, from New York City to Los Angeles, and also shares her knowledge of numbers in private client sessions.

I bought this book on the recommendation of a friend. I recently developed an interest in numbers and numerology and was told that Michelle Arbeau is THE authority in the field. While this book is interesting and easy to follow, I was super disappointed that it does not go into any detail on the master numbers 11, 22 and 33 and I had specifically bought it because my husband's birthday adds to 11 and my daughter's to 22. I felt like everything that I read in this book was just as easily found for free on the internet, and the information I was most interested in was absent.

I really enjoyed reading this book and I will probably read it over and over. Very easy to understand

book, yet so powerful and brilliant. I think Michelle did a phenomenal job with this book and that she is very talented with her work. It was very fun for me to break down the number patterns in my birth date and to get very in depth explanations about my characteristics. Soul Numbers explains so much about our strengths and weaknesses through deciphering of numbers that are in our lives. I highly recommend this book to anyone who has any type interest in why particular numbers show up consistently in their life and why you or others in your life have always done things or acted a certain way. I think this book can really help you understand more about why people are the way they are in a very grounded type of explanation. Michelle Arbeau is truly a gifted young woman.

When I read the introduction by Carrie White and the first chapter, there were tears rolling down my cheeks at the synchronicity of the number 11 observations and Michelle's early childhood psychic experience. Michelle Arbeau is gifted and intuitive. Her knowledge, experience and passion with the science of numbers shines through in this book. After having studied the Numerology Practitioner course with Michelle, I find that this book is an invaluable and practical resource and reference for my readings with clients. I'm looking forward to reading her book, "The Energy of Words". Helen P. Boyd, Australia

New way to look at numerology and the numbers that keep occurring in your life.

I'll admit, before this book numbers were nothing more than a means to an end when looking at my bank account. However, after reading Arbeau's book I now realize just how many numbers are in our daily lives. I stop and think about party dates, house numbers, even names of friends and family. Michelle explains how numerology works in a clear and concise manner, which allows the biggest novice (like me) a chance to understand how numbers affect our every day life. If you're curious about numerology then this is the book for you!

"At the age of four, I died. It was only for a brief few minutes, but that experience changed the trajectory of my life forever." Michelle's opening line to her book Soul Numbers runs goosebumps on my arms every time I read it. Soul Numbers explains vital aspects of your past, present, and future through deciphering the numbers associated with your life. It is a must-read for anyone with questions about relationships, personality traits, love, career, and if you're seeing repeating number patterns (I see 11:11 everywhere), and want a more grounded explanation rather than the usual spiritual approach. Michelle Arbeau is truly a gifted young woman. Â Soul Numbers: Decipher the
