Thinking The Contemporary Landscape

Synopsis

On the heels of our groundbreaking books in landscape architecture, James Corner's *Recovering Landscape* and Charles Waldheim's *Landscape Urbanism Reader*, comes another essential reader, *Landscape Urbanism*. Examining our shifting perceptions of nature and place in the context of environmental challenges and how these affect urbanism and architecture, the seventeen essayists in *Landscape Urbanism* argue for an all-encompassing view of landscape that integrates the scientific, intellectual, aesthetic, and mythic into a new multidisciplinary understanding of the contemporary landscape. A must-read for anyone concerned about the changing nature of our landscape in a time of climate crisis.
