## Synopsis

â ¢ Waterproof â ¢ Tear-Resistant â ¢ Travel Map

With over 5 million visitors each year, Grand Canyon National Park, is one of America's most popular destinations. Over 1.2 million acres in size, the park spans from Lake Mead and Parashant National Monument at its western edge to Glen and Paria Canyons at the East. Grand Canyon National Park and its neighboring National Forests and wilderness areas offer a wide range of recreational opportunities, from sightseeing to overnight family camping to rigorous backcountry itineraries and river float trips. National Geographic Trails Illustrated's three map collection provides two unique perspectives on the park; a comprehensive overview of the entire park and its neighboring public lands, via two maps (Grand Canyon East and Grand Canyon West) and an enhanced detail map of the high-use area around the central Grand Canyon including Grand Canyon Village and the Bright Angel Trail (Grand Canyon, North and South Rims). All three titles have been developed in conjunction with local land management agencies including the National Park Service, Bureau of Land Management, Grand Canyon Association, Kaibab National Forest, and the Grand Canyon Field Institute. If you plan on hiking would be helpful

Thought it was a well planned book with nice amount of history and geolgy to make a hike more interesting.

These are the best maps. I have a couple on my mud room walls for reference and then copies that I carry with me. They are informative, easy to read and understand, and attractive. They hold up well to moisture and abuse. Whenever I start planning a new hike, I always start with Nat. Geo maps.

Good map, Glad I bought it.

thank you

great map

Love the maps and their detail....can't wait to use them
