This unique introduction to the giants that roamed the earth millions of years ago combines adventure-filled stories with true-to-life narrative and facts that paint an action-packed picture of life during the golden age of dinosaurs!

My 2 year old son loves dinosaurs and absolutely loves this book. It provides numerous short narratives about different dinosaurs with great detailed illustrations that he has become glued to. He prefers this book and the other books in the series to other dinosaur books I have purchased him.

This book is great for reading to kids. It is very informative and has such vivid illustrations, and on top of that there are three other books printed like this one to buy if it's a big hit. Always a plus! I would recommend every child have a dinosaur book.

This book contains a series of short, "day-in-the-life" stories of different dinosaurs and other

prehistoric creatures. Even my son, who takes his dinosaurs very seriously, loves these real-life-type tales. The authors put human emotions and feelings into the personalities of the dinosaurs, and while I as an adult find them a little silly because of that, my son loves them!

Both my boys loved this book when they were about four years old. They'd want to hear the stories over and over again. The art is good, too. Be aware that some of the stories are a little bloody but in all cases the main subject of the stories makes it through okay.
