Vanabode Happily Camp, Travel And Live Forever On \$20 A Day

Synopsis

Revolutionary new travel book shows everyone regardless of current financial condition how to camp, travel and live forever anywhere in the United States on \$20 a day. Author Jason Odom and his wife Kelly have traveled over 700,000 miles in 15 years enjoying the sumptuous beauty of pristine national parks and the exciting nightlife of big cities like San Francisco and Las Vegas. Vanabode shows you how to earn a living working in some of the most exciting places in the United States like national parks and state recreational areas, how to sleep safely and comfortably in your own bed every night; how to eat better than you ever have, how to cook for free without electricity, fire or fuel; how to get rid of all our current debt and regain your freedom; and most importantly - how you can do it forever if you want. Do you want to travel for 3 months? How about 3 years? Vanabode shows you how down to the tiniest detail and you do NOT need to make any expensive purchases to make it happen. The Vanabode sales page states "I will show you how to safely travel ANYWHERE in the United States, sleep in your own luxurious clean bed every night, have a hot bath every day, eat fresh delicious meals, and experience incredible adventures for \$20 a day. You will never feel neglected, bored or uncomfortable. I promise to show you how to sleep better than you ever have, how to get the time you want and need to relax or pursue your favorite hobby, how to eat healthier, and how to travel to new exciting destinations of your choosing forever. For those that don't have any savings or retirement income I include a list of more than 30 legitimate easy ways to earn money while traveling all over the country. You need this book if any of the following apply to you: if you are so bored with your lifestyle that you don't feel like you're living at all, if you have household expenses so great that you never get ahead or get to do anything fun, if you would like to happily camp, travel or live anywhere on \$20 a day, if you are retired and want to keep a house but still travel cheaply, if you would like to downsize from a large RV to save money and time while adding destinations, if you have children you would like to travel and camp easily and cheaply with, if you would like to take time off work to write a book, recover from a tragedy, or change your life, if you are a foreign tourist coming to the U.S. for a long holiday, if are you a survivalist who wants to live off the grid, if you want to disappear and leave your past behind, becoming invisible escaping creditors or stalkers, if you are heading for divorce, blaming your marriage instead of your life, for the boredom killing you, if you want to run your own mobile business? Readers thoughts on Vanabode follow: "I've been motorhome traveling for 14 years and I've never seen anything like this" Brandon in Florida; "If you want to travel a lot, and do it cheaply, this is the only way I see to do it", Percy; "This is absolutely the best money I have ever spent on a practical show me how to do it book" Maggie, professor at a Florida Community College; "If enough people get a grasp on this

book the housing recovery will really be far off. I mean after reading Vanabode who needs a house?" Donald; "I was stunned when I saw his list of all the places I could work, without experience, while camping." Sandra; "Lots of pictures that show you exactly what he is talking about. Love it!" Wayne; "If you believe life is more than a 2 week vacation once a year then this book is your ticket out, at least it was for me". NEW THIRD EDITION! Contains 60% more pictures and 22% more content. More on these subjects vandweller, vehicle dwelling, van dwelling, living in vehicle, living in van, rv, travel, camp, explore, road, adventure, fun, offgrid, cheap, live, retire, early, quit, work, travel, vacation, van, motorhome, camper, travel trailer, disappear, escape debt, work from home, work while traveling

Customer Reviews

Starts off slow, very sloooow that almost makes you feel like you're listening to an infomercial with repetitive promises without helpful substance. But if you hang in there or bypass the first handful of chapters, at long last the remaining 80 percent is chock full of useful suggestions and tips. Don't be taken back by some of the authors questionable lowball cheapskate antics (like slipping into a sales

presentation to chow down on appetizers and drinks in Las Vegas, etc. Provided you can overlook judging the author, you'll find numerous practical tips well worth your time investment.

I purchased this book on my Kindle after reading the reviews, even the poor ones. As an avid reader and not just someone hunting for information I very much enjoyed the book. I particularly like the philosophical aspects of it blended in with the more technical information on vanaboding. Some of the poor reviews complain about the fact that you could find a lot of this information for free on the internet, but who wants to do that? Why spend hours scouring the internet when the information you seek is in one convenient place? I think the links for free camping and such are worth the purchase price alone. The only complaint I would have is that I do wish there had been a more thorough budget showing how to stay at \$20 a day per person. Much of it can be inferred, but a budget spreadsheet would have been really nice. All in all I found the book extremely helpful, informative, and inspirational.

You can not go wrong with buying and reading Vanabode! I bought this book and read through all of it with my fiancé. Jason Odom has almost a million miles of van/road travel alone. Always loved the saying "You don't learn how to make \$1,000,000 a year from someone who makes 50k, 100k, or even 750k a year. You learn from someone who makes \$1,000,000 a year." I have been driving since I was 16 am now 21 and haven't even driven 100,000 miles total. It's crazy to think that the author of Vanabode has driven almost a million miles in vanabode travel alone. This guy knows what he's talkin' about. If you are serious about vanaboding, I highly recommend this book.

The book has two aspects of living in a van. One is to try to convince you that it is an objectively superior way of living compared to having a job and buying a house. The other part is the actual details of how to successfully live in a van. For the first part, I was not convinced that living in a van is better than my current arrangement of working a job and living in a house. There is a bit of straw man in the reasons against home ownership and working, with only the worst aspects mentioned. The bigger issue, though, was reading the details of how to live in a van. Odom was very thorough on that, and because of this I'm giving the book four stars, even if I don't want to adopt the Vanabode lifestyle. He explains how to find a place to park the van when you sleep, how to deal with going to the bathroom, doing laundry, cooking, etc. If you want to live this way the book will give you a great start. Unfortunately, I like having indoor plumbing too much and working around that is worse than working for me. If you like the experience you get living the vanabode way, though, that

won't matter.

I've found no better book about how to start the RV lifestyle now, simply, on the cheap. The awesome thing about this book is that it describes a step-by-step plan to make the lifestyle work. Bob Wells' book is more thorough, and describes more options, but I would never have read Wells if I had not read Odom first. \$20/day is possible, but not outrageously comfortable. Also, it does not seem to include long distance travel, depreciation on the vehicle, or repairs. It's also true that Odom recommends a carefully-selected, used, almost unmodified older vehicle, which reduces costs.

I really enjoyed reading this book! I enjoy reading and researching ways to be free from society norm. Jason Odom gave some good ideas of travelling tips via a regular customised cargo van. I have for years been planning how to economically travel across the USA without spending a lot of money and not having to rent or purchase an expensive RV. And Jason nails it for me in this book!

What an inspiration ! He's thought of everything... this book validates that we all have choices, and yes we can choose to live an authentic life. Jason's book examines every possible barrier / excuse one could conjure up and provides a solution for each. For anyone who ever questioned the (in)sanity of living the "American dream", this is the book for you...A "counter cultural way of life" guide book. Or simply great ideas for ways to travel on the cheap !!

Great book on day van dwelling. Jason covers everything which is what I was looking for since I've never done anything like this before. The book also gives you lots of links you can use to get more information. He can even get you in on his affiliate program if you have a blog. I think the only con this book has is that it's an odd size (think road atlas size, maybe this was intentional) book and that the author repeats things fairly often and the repetitiveness of him trying to convince you this lifestyle is the right one for everyone. I didn't need to be convinced so I found that distracting. I suggest purchasing the eBook if you have the reader it's easier too get all the updates for free that way.
