## Synopsis

To some the name "secret society" conjures up an image of a shadowy and elite cabal meeting behind smoke-filled rooms, discussing tactics of world domination and manipulation straight out of the most far-fetched espionage thriller. To others, the image of secluded men (and occasionally women!) banding together in exotic garb to perform colorful ceremonies and impart hidden knowledge and fancy but incomprehensible titles upon one another springs to mind. But just how far-fetched and fanciful is the prospect of a secret society? Could it be that there walks among us, in any given echelon of the population, groups given to exercise inordinate amounts of power and influence over the rest of us? Could these exotic members-only clubs really pose such an immediate threat to our well-being that our very way of life is endangered? Well, quite frankly the disturbing answer to those particular questions are yes and yes. Right in our midst there absolutely exists clandestine organizations consisting of both men and women who wield a dangerous amount of influence and power over the entire world populace. In his book entitled "The World's Most Dangerous Secret Societies" author James Jackson explores these dangerous secret organizations and its members; their beliefs, hidden agenda and their ultimate goal of a New World Order and world domination. Here are a few of some of the dangerous secret societies that will be thoroughly examined. • The Freemasons • The Illuminati • Skull And Bones • The Bilderberg Group • Council on Foreign Relations • The Trilateral Commission • The Society of Jesuits • The Committee of 300 • The Knights Templar And Much Much More |..

## Customer Reviews

The level of detail shown by the writer, James Jackson made this book a very exciting read for me. I was expecting the cliché name dropping of celebrities and how their videos and lifestyle points to the fact they belong to secret societies. The writer really goes deep into the founding roots of most of existing secret societies of today, and how many of their members still have abodes in terrorists organizations, financial institutions and even churches!

There isn't enough detail in this book about the various secret societies. I thought it would expand on what we already know about these groups, but this book only rehashes the facts. I would recommend it to anyone who has no idea about secret societies, but not for those who have studied the subject.

Good information and a very good use of vocabulary

The title is was brought me to get this book but the contents is why I KEPT the book! Very informative of the different secret groups that are out and about in the world, uses facts, and myths about most of the known entities. It is also very well written, explains what the book is about in a professional way!

This book is very informative and helpful when it comes to Secret Societies. They really want one world government and to control people's thinking.

I loved this book mostly for how the writer, provides in depth information about the subject matter. It's quite lengthy, though. Altogether, it's a great addition to my library.

thanx
