As an introduction to cocktails, this has served me well for the past year or so. I'm starting to reach the limits of the drinks I'm interested in here, but I can't complain: it says it's a "little" book right there in the title. Since I'm still learning the vocabulary of cocktails, I like that the recipes tend toward the basic, with a few variations, except for martinis, which get an entire chapter. The lay-flat spiral binding, heavy-duty cover, and pocket size make it perfect to keep stowed somewhere on your kitchen counter or bar. Great gift for a beginning home bartender. Someone more experienced would prefer a bigger, more sophisticated guide.

This book is very cute and small enough to fit in your purse. The book is easy to read making it easy

to look up drinks quickly. I feel this is a great item to have in your home or at work behind the bar.

Nice binder rings for easy use of this book, as well as an elastic page holder...make this item a must have for the experimenting barkeep. DGMW, I'm just using this at home. But with a bit more of this book's offerings, i might just become a trained professional. It has an expanse of drink options, with only a couple that begin to seem repetitious. Overall, the variety outweighs that, and this book will keep you satisfied for making delicious drinks.

First off, so adorable, it really could fit in your back pocket or a small purse! Me and my fiance bartend at weddings and this is perfect to have on hand so we can look up recipes quickly! Alot of good recipes, great buy

I was given this book as a gift and loved it. So then I bought one for my brother-in-law's birthday. The book features classic drinks as well as some quirky ones. The directions are easy to follow and most of the drinks don't have strange liquors that would have to be purchased and never used again. The book's small size makes it easy to store and use.

This is a very concise little black book on how to prepare cocktails! The directions are clear and informative. Well made book!

Bought this for one of my roommates as a Christmas gift. All three of my roommates and myself used this book quite a bit.

This book us well put together. The spiral binding means you can keep it open easily while making your drinks without having the weight it down or constantly look for your page.It's the size of a standard note book with good quality paper and clear print which is not always the case with books such as this. .
