Petroleum Related Rock Mechanics

Synopsis

Engineers and geologists in the petroleum industry will find *Petroleum Related Rock Mechanics, 2e*, a powerful resource in providing a basis of rock mechanical knowledge - a knowledge which can greatly assist in the understanding of field behavior, design of test programs and the design of field operations. Not only does this text give an introduction to applications of rock mechanics within the petroleum industry, it has a strong focus on basics, drilling, production and reservoir engineering. Assessment of rock mechanical parameters is covered in depth, as is acoustic wave propagation in rocks, with possible link to 4D seismics as well as log interpretation. Learn the basic principles behind rock mechanics from leading academic and industry experts. Quick reference and guide for engineers and geologists working in the field. Keep informed and up to date on all the latest methods and fundamental concepts.

Book Information

Series: Developments in Petroleum Science (Book 53)

Hardcover: 514 pages

Publisher: Elsevier Science; 2 edition (2008)

Language: English

ISBN-10: 0444502602

ISBN-13: 978-0444502605

Product Dimensions: 6.1 x 1.1 x 9.2 inches

Shipping Weight: 1.6 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 3 customer reviews

Best Sellers Rank: #715,792 in Books (See Top 100 in Books) #166 in Books > Science & Math > Earth Sciences > Geophysics #173 in Books > Engineering & Transportation > Engineering > Energy Production & Extraction > Fossil Fuels > Petroleum #371 in Books > Textbooks > Engineering > Environmental Engineering

Customer Reviews

A book that you need to have in Your Engineering Collection, excellent content regarding with the mechanic causes for sand production

This book is all that I expected, and more. Its reading is easy and is related with what I was looking for in practical situation.

You know, since I have got course in drilling engineering with specialty in the rock mechanics, i started looking when I could buy this book in .com. After waiting so long for the new edition, finally I could get this book. Thank you, Anggoro Jakarta Indonesia
