## Customer Reviews

Hi there, just recived Warfare 2 days ago. The book has an excellent layout,full of pictures,fact boxes,charts timelines etc.Certainly a must read for any History or military buff of any age.Of course the time span it covers is too extensive hence the info provided is not of the in-depth kind but nonetheless very informative.The reason why I give it 4 stars is because the paperback binding is

poor quality, at 512 pages it seems it will come apart any moment. All in all, lovely glossy book but beware the binding.

Thanks, fast shipping, great product!

Our boys LOVE this book. They pull out this book out time and time again to read and re-read. A great investment that has taught and entertained our kids and their father. A great bargain to spend some father/son time together reading about all the "boy stuff" that thrills the males in our lives.

The content is good what I expected but wow could this be written any smaller. Very hard to read beware and make sure you read the description where it states paperback version. I was expecting a big hardbound book with beautiful graphics. Disappointing

OK

Bought for a friend who loves history & the military channel. All kinds of interesting & arcane knowledge in its pages.

Bought this for a nephew in ROTC. He loves and keeps it in his college dorm. Great book for someone committed to our future.

I am a history buff and especially military history. Purchased as a gift I would love to have a copy for myself. Very interesting book that covers way of warfare back to Ancient Egypt. I could easily kill an afternoon perusing this book. Never get tired of looking at it
